

CARE Centre for Internationally Educated Nurses
128A Sterling Rd #202
Toronto, ON
M6R 2B7

April 14, 2021

To our partners at Care Centre for Internationally Educated Nurses:

Touchstone Institute would like to extend a heartfelt congratulations to Care Centre for Internationally Educated Nurses for 20 years of success supporting over 5,000 internationally educated nurses in their professional journeys.

Nurses are on the frontlines of administering and evaluating patient treatment, and they do so with compassion and professionalism. They advocate for change, and innovate for solutions. Nurses are foundational to healthcare, a truth made even more evident over the past year. Touchstone Institute is grateful for the service of nurses and organizations such as CARE Centre that support them in their pathway.

Congratulations to the CARE Centre and all the nurses who have overcome personal and professional challenges to reestablish their careers to serve Canadians.

Sincerely,

Sten Ardal

CEO Touchstone Institute
