

Nursing Knowledge: Cultural Competency

Cultural Competency Workshop for IENs:

In this interactive workshop, you will engage with insights, analysis and discussion related to working in a multicultural society. As an IEN in Canada, developing tools to interact with diverse individuals, families and communities is crucial to client-centred practice and collaborative care.

Learning Objectives:

- Exploring the impact of one's own personal and professional culture
- Gaining knowledge and skills related to efficiently and competently nursing in multicultural environments
- Understanding needs and accessing key skills when communicating in a multilingual society
