

Nursing Skills: Long Term Care

Essential Skills for Working in Long Term Care Workshop:

Working in the Long Term Care environment can be challenging, especially during the pandemic. This workshop engages internationally educated nurses with the skills and techniques needed to ensure that they are ready for their career in Long Term Care.

Learning Objectives:

- Understand the goals of the Long-Term Care Act
- Discuss the Resident's Bill of Rights and Regulation 79/10
- Explore the resident's care and 24 hour living care plans
- Understand care conferences being conducted in LTC homes
- Enumerate and discuss nursing and personal support services in LTC homes
- Review medication management
- Discuss trends and issues in LTC
