

## Prepping for Success – The New RPN Exam

### The New RPN Exam

Starting January 2022, those applying to the CNO to become a Registered Practical Nurse will have to pass a new registration exam: The Regulatory Exam – Practical Nurse (REx-PN).

The new exam will test Canadian entry-to-practice competencies and will be based on current RPN practice. It will be focused on patient safety, and will ensure that all RPNs have the knowledge, skill and judgment needed to begin practice.

### Who should sign up for this webinar:

The New RPN Exam January 2022 webinar is ideal for internationally educated nurses (IENs) who are preparing to write the REx-PN. This webinar reviews the 2022 RPN Exam Test Plan, which contains information about the content areas tested in Ontario's Regulatory Exam-Practical Nurse (REx-PN). It also reviews the RPN entry to practice competencies.
